"In case I had to be executed," said the senior resident physician of the Pennsylvania Hospital to a Philadelphia Press reporter, "I would prefer to be sent to my last long sleep by poison than by cither electrothany or hanging. such a way of executing criminals would spring days we have been enjoying.

Novice. civilized country. Nearly all of them "The poison above all others that I think would give the best results as a

was addicted to the use of morphine. such a course could not be pursued, or the dose would have to be enlarged. "Hydrocyanic acid, better known to the general public in the form of prussic acid, is another poison that might be most rapid of poisons. It is so deadly that when inhaled it causes death. Smelling and tasting it is very dangerous. It should not be experimented with save in a draught, and it should not be handled in summer. It is supposed that Scheele, who discovered prussic acid, died from inhaling the fumes, as he was found dead in his laboratory. A person taking it in one corner of the room would, I have been informed, die before he could take two jumps to another corner. The man would have convulsions, but he would

Asonito is also very rapid. Administered hypodermically it would cause death in less than a minute. A wellknown doctor was taken sick in the night and told his wife to get him a botthe of medicine. She handed him in tinia, of Linden, Mississippi, arrived mistake a bottle of aconite. He took a here last Monday. Mrs. Top, washing dose, and recognized instantly from summoned to the bedside of her father, what he had swallowed. 'My dear,' he violently ill, but is better at this wri said, 'you have given me aconite.' The next minute he was unconscious and soon he was dead."

THE YARD MEASURE.

It Represents the Exact Length of the Greenwich Clock Penaglum. Every one is acquainted with the nature and utility of the yard measure. It is the standard of length in a dozen different countries, regulating all other measures, and, consequently, is the Messrs. Will Cochran and George foundation of business transactsons and were last Sunday on business. We professional operations of many kinds all know the nature of Sabbath "transrefessional operations of many actions."

All kills actions."

All kills actions."

All kills actions."

Mr. Tom Alexander and family, who It would be in the greatest degree inconvenient and uneatief actory if a yard in one country meant something enin one country meant something entirely different to that in a neighboring country; especially would this be true is now being treated by Dr. Topp. We hope he will be successful in effecting a

country; especially would this be true did the different parts of a sountry possess different standards of a yard measure. Hence it is necessary to have some authoritative standard by which the dimensions of a yard shall be accurately adjusted, and according to which the law is now being treated by Dr. Topp. We have some has settle says she has swol lowed "everything" in the drug store, which the did ale, was in Mt. Pleasant last Sunday, and according to which the law is now being treated by Dr. Topp. We have some has settle says she has swol lowed "everything" in the drug store, was in Mt. Pleasant last Sunday, and according to which the law is now being treated by Dr. Topp. We have some have says she has swol lowed "everything" in the drug store, was in Mt. in the event of the standard being lost or destroyed, it would be next to impossible to construct another of precisely the same dimensions. To avoid any such a difficulty a scientific basis has been taken for the formation of the standard measure. Plainly stated, this standard measure. Plainly stated, this Leads them All.

There were more II, mil ous' sold last year than all other Cultivators combined. It is the only Cultivator that vill carry large Varning Shove's or Barshares, as well as the ordinary shovels and Bull Tongues in the heaviest soil without injury; and the only Cultivator in which the Shovel Standards can be instantly set apart or together to suit the size of the Slevels, Bull Tengue shape or Barshare used. They are easier bandled and will do better work han any Cultivator male.

## New Hamilton Riding Cultivators.

The Hamilton has proven itself to be the leading Cultivaor now on the market. Its sales the past year were largely in excess of previous years and were more than all our competitors ombined. Such success is due to the fact that our Cultivator in every respect peculiarly and singularly adapted to the work of cultivation the various crops—corn, cotton, sugar cane and cotat es—ha ing an edjustable arch so it can be easily adjusted any width rows,

Under all circumstances you can depend on the Hamilton. EATTERFIELD & CHURCE,
